APPENDIX 1 Example of slide about one refugee as a role model. This could be adapted to your own project

I did it!

Slide from 'Dan did it' presentation

'He had arrived as a refugee two years before with no previous knowledge of radio skills. He explained that only a year before, he had been in a similar position to the day's trainees, telling about how he left Senegal and came to the UK and Sunderland, and learning how to record and edit his story. All the participants already knew Dan because of his outreach and position in the community radio project. His presentation focused on 'his story' over the past two years and how if he could broadcast, edit, interview etc then they could too'. (Lewis 2009)
