

HANDOUT 4 QUESTIONNAIRE ON RADIO PRODUCTION

Introduction

This is an evaluation instrument with three headings and is to be completed by trainees who have taken a course on radio production and who have had some experience in working in a radio station as part of the training.

I. General topics

The course itself is comprised of units on radio production (pre-planned and live), background to the radio industry, IT for radio, independent work.

1. What was the best aspect of the course?
2. What improvements could be made?
3. What additional comments do you have regarding teaching methods and resources?

II. Experience in broadcasting

1. Please describe the range of things you did for the station.
2. How prepared did you feel for what you did?
3. What new skills did you learn through making the programme?
4. Did you feel you had enough support in what you did for the programme?
5. What additional support would have been valuable?
6. What was the best thing about your involvement in the programme and the station?
7. What was the main thing you learned from the whole experience?
8. If you were to get involved with a radio station again, what changes would you make to (a) the programme you worked on, (b) other programmes on the station?
9. How do you think the experience prepared you for future work in radio?

III. Future needs

1. radio skills
2. confidence building
3. knowledge of industry
4. working independently
5. IT skills
6. other skills
