Germany and Switzerland are two important European countries and are prosperous states. These two countries have progressed in all areas and have regular and stable structures. Afghanistan is the poorest and war-torn country, suffering from years of political, security and economic instability. The current situation in Afghanistan is affected by the external and internal conditions of this country. The intervention of regional and global powers and the competition of these countries in Afghanistan, causes the current situation in Afghanistan. At home, issues such as the lack of a correct definition of the nation-state, ethnic competition for power, unequal distribution of sources of power and wealth, low literacy, religious extremism, poverty and unemployment, etc.

Switzerland and Germany are two countries that accept immigrants and accept immigrants from poor countries such as Afghanistan every year. They should try to work on the thoughts of these immigrants and eliminate negative and extremist thoughts and focus more on welfare.

First of all, thank you for giving us the opportunity to express our views. 2: Decades of war have made it more difficult to achieve lasting peace. 3: Social tensions have arisen deep in society. 4: Lack of social context. There are no changes in the living conditions of the people. 6: Lack of social justice, etc. These are the main factors hindering the achievement of permanent and lasting peace in the country. Peace in culture means a state of calm in normal relations with other countries and the absence of war. Specific sticks should be made. At the same time, creating a clear and effective strategy to eliminate violence, fight against all kinds of racial, linguistic, religious discrimination ... as well as eliminating historical contradictions and also the willingness of the parties to negotiate and the parties to overcome some advantages. What we need to learn from the situation in Afghanistan is that the Taliban have the power to rule almost all of Afghanistan without lightning resistance. There are several important lessons for us. Its allies. 2: Although the people feared the Taliban, they did not resist them because the rich government had become a minority government and had lost its popular support. They were doomed to failure. People who have a rich past like Ashraf Ghani. Put pressure on the Taliban to become more flexible Supporting Afghan women and girls Because they are in a difficult situation and these restrictions are increasing day by day, we want them not to be recognized and their leaders to be sanctioned. Work with us to achieve lasting and lasting peace.

Hello dear friends!

According to your question, we can say, approximately 99% of people are in a very bad situation. This situation is full of frustration, tragic... is really hard for Afghan people.

I am sorry about things that I mention, but all of them are true.

This situation is really difficult especially for ladies when they are going to university with full

fear and apprehension.

We struggle with poverty, difficulties, Taliban, and etc.....

Children instead of going to school, they are beggars in cold weather.

Millions of Afghan people are addicted, unfortunately every day is increasing.

Fall of our government has many reasons like: racism, distrust, bribe,

In addition, the people who worked with government, all of them are traitors.

The main reason the last president (Ashraf Ghani) wasn't selected by people in election

At all, the fall of government of Afghanistan is due to corruption, racism, distrust, bribe and etc.

Your sincerely:

Peace is a lovely word, especially for the people of Afghanistan, who have been seeking it for many years. But alas, they have not achieved true peace. Afghanistan You will achieve real peace if the leaders and political figures of Afghanistan are patriotic, think of the interests of their homeland and nation, and have the responsibility for the good of their homeland and nation, and all nations must be in solidarity with the problems of the people. Note. If you are in a country of racial and gender discrimination, it will cause unhappiness in a country.

As far as I am concerned the people of Germen and Swiss can learn that they have struggled a lot for the peace, education and rights of men and especially women. It is very crucial for them. Furthermore, they have learned that all of them need support. Now the situation is very really bad for all they people and other countries should support them in all departments.

Afghanistan is a Warnton country that has three decades of war experience from different insurgent groups.

Afghanistan people re athirst of peace. As a Afghan woman if ask me .what is your wish or expectation shahla?

I will say peace and my education.

Because I know peace is best part or thing in our live peace is the key of fortune and education is way of improvement of ourselves our community our country. I believe the cause points that re in Afghanistan situation re discrimination between ethnic sex discrimination infidelity of afghan people or dignified of this country intervene of neighbor countries of Afghanistan. Corruption also these re points will gave a new experience of political for Afghanistan on 2022...this situation of Afghanistan is best lesson and experience for all afghans and world

What can the Germans/Swiss people and institutions learn from GU/Afghan people

First of all, thank you for the humanitarian feeling of kind countries like Germany and Switzerland! At first, our 43-year war is due to our poverty and illiteracy. We, the people of Afghanistan, have an ancient history but we are thirsty for peace, which is not and will not be ours, but you are two honorable countries, the happiest people on earth. Do you know why we people burn in the flames of war? It is that we are 91% illiterate and we have several religions and denominations that all these religions do not coincide. Do not miss the highest position of humanity. Respect for the great and humane means humanity

Discrimination between ethnic and racial religions is the enemy of humanity, which unfortunately has a strong foothold in our country. I am Soodabeh Hashemi, I am student of economics at Gawharshad University in Kabul. Religion is not important to me because God has guided me to humanity. I am a girl. You live in Germany and Switzerland. Congratulations to each and every one of you that your people know you, including men and women

You are the luckiest person on earth, you have rights. I have the following advice for you dear people and friends of Germany and Switzerland. Put only humanity in your practice. Put the woman first Avoid discrimination in isolation Never discuss religion Respect yourself first, then others Just keep in mind that everyone is human Science and knowledge is life Curse illiteracy. Curse the war

Factors of Falling the Afghan government and a message to the world;

After five obscure and gloomy years the regime of Taliban fell down by U.S.A. A new sun came out and the Afghan people owned a new government, which was established by vote and democracy found its was, in addition the new government has been lasted twenty years and made plenty of errors for instance: discrimination, bigotry, intolerance, corruption, debauchery and sexism were on the peak. At the end of the day Kabul has lost and Taliban took the authorities again, first and foremost discrimination, corruption and extremism are the main reasons in order to collapse a government. Every government must pay attention.

(Gawharshad University)

Some professions need not be said. Last month, as soon as the Taliban took control of Kabul with astonishing speed, the Afghan people knew what to do in the group's second term. Men no longer shaved their beards, women replaced their light-colored scarves with black ones to make sure their shirts and coats were long enough. Do not return to the office of many female employees. Many of them are afraid that they will never be allowed to return to their past life in a city where they no longer feel at home. I say in a trembling voice: All my dreams are gone. We want peace and we have equal educational opportunities for boys and we need girls. But [now] I think boys have more right to education. Girls, the car has become very difficult for us. I get in two cars, two cars, so I go home again. I walk one way because I do not have rent money. I had dreams, what will happen to our future? We live in our mother's house without any hope. My life is in one of my aunt's schools. Our life is very hard for us. You can not work, from April to Muharram, with what number can you come to university? They have taken the way of the people themselves. They cry with their cell phones. They say we are inspecting but to no avail. The employee's salary goes to oil flour for a month.

are imprisoned like a cage in Afghanistan, we have nowhere to go, there is no hope for us in Afghanistan, please help us, thank you.
